

HENRY MOULE

SOFTWARE DEVELOPER

Experience

CarePlanner Ltd

JavaScript Developer

Since November 2019

Working on the newest iteration of their mobile app using React Native which consumes a GraphQL api provided by AWS AppSync as a means to linking it to the CarePlanner REST api

Active Inspiration Technologies

Software Developer

January 2018 - November 2019

For Active Inspiration I primarily worked on Fuell React Native app however I worked across the stack developing the fuell backend using Node.js and the Parse Server platform. Active Inspiration also had multiple clients who I have developed various solutions for using technologies including React, Node.js, GraphQL and Next.js

DYRNAN Communications

Junior Software Developer

Education

Bachelor of Science (B.Sc.) Computer Science at Oxford Brookes University

year course (including a year in 4 industry) teaching Java with a focus on OOP but also included many more modules that covered Python, C/C++, JavaScript and C#. My course also involved a teaching module where I spent a week as a teaching assistant helping teach Python and Scratch at a secondary school. In my final year as part of my final year project I developed a maths game that is currently available on the Google Play Store:

play.google.com/store/apps/details?id=com.mygdx.equationDragger
