HENRY MOULE

SOFTWARE DEVELOPER

PROJECTS

WORKING EXPERIENCE

### JavaScript Developer - CarePlanner Ltd
Since November 2019

I am working on the newest iteration of the CarePlanner mobile app, which provides the appointment rostering functionality that enables carers to check in and out of appointments. The app uses React Native and consumes a GraphQL API, provided by AWS AppSync, which links it to the CarePlanner REST API.

Software Developer - Active Inspiration Technologies
January 2018 - November 2019

For Active Inspiration I primarily worked on the Fuell React Native app, however I also worked across the stack developing the Fuell backend using Node.js/Parse Server. Active Inspiration had many clients for whom I developed various solutions using technologies, including React, Node.js, GraphQL and Next.js.

Junior Software Developer - DYRNAN Communications
July 2017 - December 2017

At DYRNAN I worked primarily on the frontend, using React Native to develop an encrypted messaging

app called Secoti (formerly Dyrnan).

Freelance Web Developer - Candour Creative
July 2016 - September 2016

Candour Creative outsourced some of their development work to me, which involved developing the website nicksweeney.co.uk using WordPress as a platform to create a custom CMS (PHP, MySQL, JavaScript, CSS).

Support Representative - WebCurl Ltd
November 2014 - June 2016

For my year in industry at university I worked for WebCurl, a web development agency based in Oxford, where I helped develop websites using Drupal (PHP, MySQL, JavaScript, CSS).
